# EMPOWERING NEW YORKERS WITH DISABILITIES

---

**DISABILITY RIGHTS**  
**NEW YORK**

Center for Disability Rights, Inc.

We are organizations and individuals committed to promoting equal access and increased participation in the electoral process for all New Yorkers. We believe all eligible voters should be provided with the same opportunity to vote privately and independently. Although steps have been taken towards this goal, much remains to be accomplished. We invite election officials and legislators to work with us to discuss, implement, and support policies and practices that will ensure the rights of all voters throughout our state.
